A beautiful farmhouse with approximately 3000 square metres of land located between Vejer and Medina Sidonia in a quiet, rural area. The plot has an abundance of fruit trees and a water deposit of 3000 litres supplied by a shared well. The farmhouse has been completely renovated and has 150 square metres.

Its currently distribution provides very spacious 1 bedroom accommodation but this could easily be changed to provide 3 bedrooms for a family home. There is an area in the main patio that could be built to expand the main house even more. There is also another building on the land currently used as storage that could be restored to provide further accommodation. Electricity is supplied by solar panels. The location is unbeatable to enjoy the peace and tranquility of the andalucian countryside.
